

Act 14:7 And there they preached the gospel.

In the first photo we are preaching to the professionals...that is the ladies who get paid for their services. This is that day care center for prostitutes I mentioned in the last report. They come here in the daytime to watch TV, play games and eat lunch and get preached to and then go back to work at night. We had a very great response to the preaching and the director suggested that we go on the street at night where they gather for their business. The director said she would gather them for us to preach to. This Friday night we are scheduled for this ministry...I will keep you informed.

IN THE HOSPITAL

This photo inside the hospital is where we went from ward to ward bring healing to the souls...again we were well received...bringing music and ministry of the Word to those sick in soul and body.

PUT YOUR WADERS ON...LET'S GO ON VISITATION

Talk about water front property...try this for visitation... with a jigsaw they can go fishing from their living room, bedroom or kitchen. There are many neighbourhoods exactly like this in the Philippines.

OSHA ALERT

This is an aluminium ladder leaned against the mass of wires in the middle of traffic...if you live to the top of the ladder how do you figure which wire needs repair?

ANOTHER JAIL MINISTRY

I just received a text from the warden of the provincial jail in the center of town...he wants us to come and free all the souls in captivity there...we will try to work it into our schedule...HALLELUJAH for something to do that will last for eternity.

BEALE ST. BLAST

Please open the attachments for the Blast that is coming soon...within the month. This is a most wonderful event if you care anything about publick ministry. You need to pray about attending...I would if I could but I can't so I won't. The preaching schedule is tops and the street ministry is excellent.

MINISTERING TO PROFESSIONALS
