

SWAT Report #236 Oct. 22, 2015

Exodus 10:24 "Go ye, serve the Lord" ...and Sutek said, "OK, I will."

Our Ministry Took a Turn Down Under

A fine missionary to Australia invited the SWAT Team to come and teach public ministry to his church in Sydney. We thrilled at the invitation and preached nine times while there, including two street meetings. We felt honoured to have the opportunity to hold a street meeting on George Street, where Frank Jenner faithfully served the Lord for many years without actually seeing any fruit. But after nearly three decades, one of his converts gathered many testimonies and brought the encouraging words back to Bro. Jenner, to his great delight. Nearly the whole church had a great street meeting, with banners and all, in front of another busy mall.

Our Personal Aussie

We liked the Aussies so well we brought one home with us for a few days. Actually, we were in the airport waiting for our return flight to the Philippines when we met a young man (24) who was a vibrant Christian on his way to PI for a business trip. We had such sweet fellowship that he decided to squeeze in a weekend ministering with us. We took him on a street meeting in the market where he preached for the first time. Steve Oliver became a good friend quickly, and we hope to have more fellowship with him soon.

New Banner, Help Yourself

While in Australia, we met a professional artist who took the idea for an anti-evolution banner and turned it into a very powerful witness. At a simple glance, you are forced to make a choice. We plan to fly this banner in front of the universities, all of which teach evolution unashamedly. We will preach and pass out the Chick tract "Big Daddy", a powerful anti-evolution tract. We can hardly wait to present the truth in these ways. If you like this banner, or "It Is Finished", please copy them, or write me for a good copy of the image; make your own banner. Notice that on a recent street meeting, we flew both banners.

Preaching the gospel on *your* streets and around the world,
