

This Ministry Is A

M.U.S.T.

SWAT Report #237  
Nov. 12, 2016

That is, Mindanao University of Science and Technology. This is a very large university in the center of the city. They draw students from all over the Philippines. The campus property adjoins the national highway and normally there would be absolutely no area in front to minister, but the road department "just happened" (ha!) to plan construction right there and stopped the traffic in two lanes directly in front of M.U.S.T. We used the new "Creation vs. Evolution" banner, distributed close to 3,000 "Big Daddy" gospel tracts, and we preached. We began by infiltration...our Bible students, some dressed in the university color, went among them and passed out tracts, which were received nearly 100% of the time; try that on a U.S. campus. Our guys held the banner and preached in front. There is nothing like a new war to bring unity to the troops. Our students were

abuzz with testimonies and excited about the next planned invasion of the other campuses. We have six large universities in our city of a million people, and all of those schools have evolution as their foundational theme. These new ministries will keep us busy into 2016 and then we will start ministering in the same way with the high schools...GLORY TO GOD for something significant to do for the King of Kings.

## A Double Check-Up

The first supporting pastor to visit us on two of our three mission fields, Pastor Dave Dunbar and his wife Debbie from Freedom Baptist Church in Auburn, NY, came to check up on us again. I think some pastors in the USA just can't bring themselves to believe that the ministry can really be this good. Our friendship extends back 28 years; we really had a great time fellowshiping and ministering together. We kept him busy with ministries and teaching institute and pastors' classes and preaching in the church. He and I sing together like Bear and I used to...our best quality is volume. Notice us shaking hands at the end of a powerful duet. Our church folks really like it. We must have passed inspection, for his ministry continues to support us...Praise the Lord.

## Filipino Funnies

### First Place Winner

most junk piled on a motorcycle

Filipinos can sleep  
**Anywhere, Anytime**

cheap, lightweight, easily extendable >

In case you were worrying, the extension at the top is secured very well... with 2 nails.

New, Improved Scaffolding
