Watermelon at the Baptism

This month we baptized four converts at the beach with many observing. Benaiah enjoyed himself at the same time. He is looking on... while gorging himself and waiting till he can hit the surf again.

New Year in Public Schools and Colleges

Here is one of our students teaching in a public school classroom and another photo of the students' response. This is 7th grade...

Can you imagine the response from a US 7th grade class? Another photo shows students ministering at Xavier College. This is a Catholic college here in CDO and they, like all colleges, base all their teaching on a foundation of evolution, so we are

preaching on creation vs. evolution and passing out Chick tracts with the same subject. Though the preaching is merely ignored or tolerated, the tracts still go home or into the classrooms.

GRADS AT WORK "MULTIPLY AND REPLENISH"

We train the students for the ministry. Our motto is "Life is ministry and ministry is life" and some of them actually believe that. Of the 12 that have graduated with a Bachelor of Ministries degree, nearly all are involved in ministries, some of which they began themselves. Some have gone back to the neighborhoods in which they grew up and have started Bible studies which are evolving into churches which we support or plan to support. Others are at work in our own ministry and are a great help. We are just beginning to **MULTIPLY**.

BLUEPRINTS ARE SIGNED FOR THE BUILDINGS

The man signing is James Manalo, (Mary, my daughter's brother) and also my partner. We are all ready to go on the buildings....just need the money and the Lord even has a plan on how to present this...PTL. Please pray the Lord brings in the necessary funds to build. We are claiming Phil. 1:6 since this was His idea not ours. We are quite confident and at peace with this project. Could be finished by this time next year. This will put us in a very good position to take full advantage of the open evangelistic opportunity we have before us.
