

If the Lord put you in a harvest field you better not be caught sleeping. We find it hard to catch a nap now and then. The ministries are not the problem, we have so many ministries but never enough laborers...pray He sends forth laborers. I could triple the ministries in one week so if you support one or all three of the missionaries working under this umbrella we are all very busy. By the way, we have another good man coming to work with us named **Brenton White**. Brenton White is very needed here...he has qualities and talents that we can use yesterday and tomorrow. When he calls you (and he will) please give him the right hand of fellowship...please give him a meeting and please give him some bucks so he can get here fast.

MAKE-HAY-WHILE-THE-SUN-SHINES MINISTRIES SUMMARY

CHURCH...We had 91 in service this morning...about 8 were first time visitors. Among our adults several are involved in at least one ministry... "Life is ministry and ministry is life.

BIBLE INSTITUTE...We have some really good preachers in our college. Publick ministry is a breeze for them and now they are perfecting all the other ministries along with the pulpit.

STREET MINISTRY...This is what makes all of our people strong. I can't imagine growing a church without participation in publick ministry. Our men preach in front of the largest Catholic church and directly to the sodomites and Muslims, JW's, Mormons and Adventists passing by. We have one student who can preach in the Muslim dialect and last week he preached to three busloads of teenaged Muslim students from Marawi (recent war zone).

HOSPITAL MINISTRIES...We preach four times each week inside the hospitals. To those waiting for doctor appointments and those in wards. A new crowd every week.

NURSING HOME...This 5 year old ministry adds some grace and gentleness to our tough students. We have grown to love these seniors and this growth is mutual. Several saved..

POLICE MINISTRY...Instead of the police telling us where to go we get to tell the police where they are going. This builds great relationships and connections.

PRISON MINISTRIES...Our ladies prison is running over 100 and requesting that we extend the college courses to them. Our men's prison college course is running 40 consistently and all are making good grades. We have had 22 recite the books of the Bible by heart and they are working on the 10 commandments.

DSWD (WELFARE, BATTERED WIVES, ORPHANS) BOYSTOWN...Bro. Doney has built a great rapport with the homeless boys and has had several saved. The authorities won't let them come to church yet.

CEPALCO ELECTRIC COMPANY MINISTRY...Greg Stedman has developed this foot-in-the-door opportunity into a really profitable ministry. Several of these scholarship students have come to church but all 20-30 hear the Word weekly.

CHILDRENSHOME AND TEEN FIELD MINISTRIES...Mike Doney is a natural with kids and teens. What a blessing to have him working with us in these areas. Any pastor would desire to have him work with their kids and yet we have him with us as a missionary. Team missionary efforts can work very well.

DEAF MINISTRY (NEW)...We just had a missionary to the deaf come into our church and he taught the sign language and helped us to develop a ministry to the deaf...this is one week old but looks very promising...some of our people are very excited and now we can all haltingly witness to the deaf.

PASTOR'S SCHOOL MINISTRY...After 5+ years we still have 8-12 pastors travel long distance to come to the doctrines class each week. We have taught them Genesis, Life of Christ, History of the Jews, Acts-Hebrews and we are now studying Revelation.

PUBLIC SCHOOL MINISTRY...On the second Friday of each month the local public school allows us to take over 12 classes of 50 students each. If you do the math we minister to 600 5th and 6th graders for an hour each month...the students absolutely love it. Songs, games, testimonies and **BIBLE**. In December we offered to help anyone looking for an end of the year tax break. The good Lord gave us \$1500. This keeps the finish-construction project going on in our building project. Pray we can just get something like that each month and with much of our own labor we will finish this huge project in 2018. PTL
