

TIME FLIES WHEN YOU'RE HAVING FUN

Psa_89:47 Remember how short my time is: wherefore hast thou made all men in vain?

I always caution my Bible students to pay close attention to the time jumps in the Bible, especially in Judges thru Chronicles. A lot can happen during those gaps to change the circumstances. Well, time seems to be passing faster with a lot of changes monthly/daily. We have had our 4th Bible Institute graduation, and this one was preached by Pastor Mike Veach from Staten Is. We have been to Australia and back to preach for friends and to visit our daughter, Mary and her hubby, Steve. We have been ministered to by our friend and missionary/guide to Israel with 10 days of preaching and teaching on the importance of the Jew and the nation of Israel. I won't mention his name because of his immigration situation. Several adults and kids have been saved from our Christian school ministry. Several have been baptized...WOW...this is why I try to send two reports per month. I must give you a few highlights.

GRADUATION

We had four of the finest to finish the course and receive their well-earned Bachelor of Ministry degree. All are very comfortable with their Bibles and all are very comfortable ministering in any circumstance, whether traveling on the bus/jeepney, preaching to police, hospital, jail, boy's home, street or old folks home. They all have been welcomed into my pulpit with confidence that they will truly minister. We begin class this Monday night with several new students...PTL and thanks for your prayer on this.

HOLIDAY EVENTS

Our ministry celebrated Philippine Thanksgiving with a record attendance of 150...then graduation celebration with many visiting...then Christian school and special holiday activities where the parents were in attendance. This past Sunday was the first Sunday of the new year and we had 103 in church...PTL.

MINISTRIES We take the church on the street on the first Friday night of the month in a large commercial market area. In December we had Pastor Veach join us and put 38 out ministering. Our goal is to have all who regularly attend to regularly minister. This last Friday night we put 37 on the street ministering.

CRACKED FOUNDATIONS ???

Attached is a short doctrinal thesis which I wrote to help...not provoke...many who may have crazy superstructures in their theological houses and really don't know why. I truly hope this will help you, fortify you and supply you with ammunition that may be critically needed.

WELL, BETTER GET BACK TO WORK We are all sound, solvent, satisfied, and seeking His soon return. Like many of you I don't really see how the rapture can be much longer...so look for the upertaker not the undertaker.
