

PUBLICK MINISTRY MAYBE???

The verse above seems to demand publick ministry, or am I making too much of the King's English?

We are fortunate to have many places where publick ministry can have a profound affect.

We take advantage of most of them with about 116 street meetings each year. One place is a very busy pedestrian overpass between to popular malls. Sometimes we can even **PUBLISH HEADLINES** for our Lord.

Notice I am waving in the banner photo, zoom in more if you can.

We are right in front of the Catholic church. We include one-on-one personal work with our PM.

Here, one of our schoolteachers gets thick into it with a lady. And the man with the tract read it through twice when I sent one of our grads and he witnessed for 20 mins.

Notice that the police are right on the scene of our PM and we are out in the street stopping traffic and motorcycles to pass our tracts and hold scriptures.

Notice there are more people than you can shake a tract at in this photo and we are doing everything we can, while we can. Things are changing a bit here though, and once in a while somebody does turn down a free tract.

The ice cream is a temporary reward for temporary service. The permanent reward comes as desert at the marriage supper of the Lamb.

The lego tower was built by the Manalo kids. It is named Manalo Manor sort of like Trump Tower. It will be my illustration for my upcoming hour in public school teaching evolution vrs. creation to 500 ninth graders. This is with the permission of the principal. The lady who teaches evolution to satisfy the law will be present. Please pray for this on Feb. 21.

Busy in the King's business...

Gerald and Robin Sutek 1 Sam. 21:8
