

ENGAGED...IN PUBLIC MINISTRY

I would not like to be looking for a partner to serve the Lord with in today's generation. This is Alvin and Mae and a finer couple does not exist. Alvin chose to pursue Mae as his help meet after watching her teach, witness, pass out tracts, and serve the Lord.

They will be married in August and plan to begin their ministry in an indigenous ministry on a mountain about 6-7 hours away. They have been planning this and making preparatory trips there for a year and a half.

They will do well there. Alvin graduated from IBMP in Dec. of 2018 and Mae is a certified teacher. They will go out from our church as missionaries. What a great spiritual investment opportunity either by prayer or finance.

If you care to invest in nationals going to their own indigenous people just let us know. We can make it very simple for you and they will send a regular report direct to you.

THE VALUE OF GREAT FELLOWSHIP

Great fellowship is a very enjoyable experience in our independent circles, and when veteran missionary Chad Wells stopped by our place we sharpened each other's iron and filled up on joint ministry and great fellowship. Thanks Chad!

YEP.....ANOTHER ONE

It seems I have had enough birthdays to last a lifetime but folks still want to celebrate them. Well, one more won't hurt anything. Birthdays are actually good for you...the more you have the longer you live.

GRANDMA AND COMPANY

GRANDMA, IN THE PHILIPPINES

This is Robin and her grandkids in the Philippines. These are the children of our partners, James and Jonalyn Manalo. James is our daughter Mary's brother. The twins, Joy and Faith just turned 12, then Angel is 9, and the two boys are Beniah 5 and Baby Abishai. They serve as out grandkids in PI.

ONLY IN THE PHILIPPINES

Where else could you be allowed to transport an object on top of your car that is bigger than your car? Our health is great and our strength is sufficient for our duties so we have no complains. Serving the good Lord on the front lines of the great war.

ONLY IN THE PHILIPPINES...LOAD BIGGER THAN VEHICLE
